

Weekly Practice Worksheet

6th Grade · Science · Week 10 (Quarter 2)

Earth's Systems & Weather

This week's focus: Layers of the Earth

Student Name: _____ Date: _____

Monday: Introducing Layers of the Earth

Learning Objective

Students can describe the key idea behind layers of the Earth.

Practice

Guided notes and diagram labeling on layers of the Earth.

Check-In / Reflection

Exit ticket: one fact learned about layers of the Earth.

Tuesday: Investigating Layers of the Earth

Learning Objective

Students can explain how layers of the Earth works through observation.

Practice

Students record observations and draw conclusions.

Check-In / Reflection

Teacher checks lab notebooks for accuracy.

Wednesday: Applying Layers of the Earth

Learning Objective

Students can connect layers of the Earth to real-world examples.

Practice

Groups share one real-world connection with the class.

Check-In / Reflection

Short written reflection.

Thursday: Practicing Layers of the Earth

Learning Objective

Students can answer application questions about layers of the Earth.

Practice

Peer discussion to compare answers.

Check-In / Reflection

Practice sheet collected for feedback.

Friday: Review & Check-In: Layers of the Earth

Learning Objective

Students can demonstrate understanding of layers of the Earth on a short check-in.

Practice

Class discussion reviewing answers.

Check-In / Reflection

Completed check-in collected and reviewed.
