

Weekly Practice Worksheet

6th Grade · Science · Week 19 (Quarter 3)

Ecology & Ecosystems

This week's focus: What is an ecosystem?

Student Name: _____ Date: _____

Monday: Introducing What is an ecosystem?

Learning Objective

Students can describe the key idea behind what is an ecosystem?.

Practice

Guided notes and diagram labeling on what is an ecosystem?.

Check-In / Reflection

Exit ticket: one fact learned about what is an ecosystem?.

Tuesday: Investigating What is an ecosystem?

Learning Objective

Students can explain how what is an ecosystem? works through observation.

Practice

Students record observations and draw conclusions.

Check-In / Reflection

Teacher checks lab notebooks for accuracy.

Wednesday: Applying What is an ecosystem?

Learning Objective

Students can connect what is an ecosystem? to real-world examples.

Practice

Groups share one real-world connection with the class.

Check-In / Reflection

Short written reflection.

Thursday: Practicing What is an ecosystem?

Learning Objective

Students can answer application questions about what is an ecosystem?.

Practice

Peer discussion to compare answers.

Check-In / Reflection

Practice sheet collected for feedback.

Friday: Review & Check-In: What is an ecosystem?

Learning Objective

Students can demonstrate understanding of what is an ecosystem? on a short check-in.

Practice

Class discussion reviewing answers.

Check-In / Reflection

Completed check-in collected and reviewed.
