

Final Project: Digital Portfolio Piece

Name: _____ **Date:** _____

LEARNING OBJECTIVE

The student will create one original, finished digital artwork that combines the skills learned throughout the quarter.

MATERIALS NEEDED

- A tablet, phone, or computer with a free drawing/design app
- Paper and pencil for planning
- Notebook paper for artist statement

HANDS-ON ACTIVITY

1. Plan your final piece on paper first: choose a subject, sketch a rough composition, and decide on a color scheme (using color theory from Week 3).
2. Build your piece digitally in layers (background, midground, foreground) as practiced in Week 4, keeping elements organized.
3. Apply at least 2 techniques from this quarter in your final piece: for example, blending for depth (Week 8), clean shapes/vector-style elements (Week 7), or added text/typography (Week 6).
4. Review your piece for balance and hierarchy, making final adjustments to color, spacing, or contrast.
5. Save your finished digital artwork and write a short artist's statement (4-5 sentences) on notebook paper describing your subject, techniques used, and what you're most proud of.

QUESTIONS

1. What is the subject of your final digital artwork?

-
2. List at least 2 specific techniques from this quarter that you used in your final piece.

-
3. What part of your final piece are you most proud of, and why?
-

4. Looking back at your Week 1 drawing versus this final piece, what is the biggest improvement you can see in your digital art skills?
