

Weekly Practice Worksheet

7th Grade · Math · Week 1 (Quarter 1)

Proportional Relationships & Percent

This week's focus: Identifying proportional relationships

Student Name: _____ Date: _____

Monday: Introducing Identifying proportional relationships

Learning Objective

Students can describe the concept of identifying proportional relationships.

Practice

Guided practice with 3-5 problems on identifying proportional relationships.

Check-In / Reflection

Exit ticket: one practice problem on identifying proportional relationships.

Tuesday: Building Skills with Identifying proportional relationships

Learning Objective

Students can solve straightforward problems involving identifying proportional relationships.

Practice

Independent practice set, checked in pairs.

Check-In / Reflection

Teacher circulates and checks for understanding.

Wednesday: Applying Identifying proportional relationships

Learning Objective

Students can apply identifying proportional relationships to real-world word problems.

Practice

Groups present one solution strategy to the class.

Check-In / Reflection

Short reflection on strategy used.

Thursday: Practicing Identifying proportional relationships

Learning Objective

Students can solve a mixed set of problems on identifying proportional relationships with increasing independence.

Practice

Peer tutoring for students who need support.

Check-In / Reflection

Self-check against answer key and flag questions.

Friday: Quiz & Review: Identifying proportional relationships

Learning Objective

Students can demonstrate mastery of identifying proportional relationships on a short quiz.

Practice

Class review of quiz answers and common mistakes.

Check-In / Reflection

Completed quiz collected and reviewed.
