

Capstone: My Future Plans Presentation

Name: _____ Date: _____

LEARNING OBJECTIVE

The student will create and present a visual project describing their personal future plans using a variety of future tense structures.

MATERIALS NEEDED

- poster board or paper
- markers or colored pencils
- photos or drawings (optional)
- index cards for notes

HANDS-ON ACTIVITY

1. On poster board, create a 'Mi Futuro' (My Future) poster divided into 4 sections: Educación (Education), Carrera (Career), Viajes (Travel), and Vida Personal (Personal Life).
2. In each section, draw or paste a relevant image and write 1-2 future-tense sentences in Spanish describing your plans for that area of life (using at least one irregular verb and one 'ir + a + infinitivo' structure somewhere on the poster).
3. Write short note cards with key words to help you remember what to say, without writing out full sentences to read from.
4. Practice presenting your poster out loud in Spanish for about 1-2 minutes, describing your future plans section by section.
5. Present to a family member (or record yourself), then write down one question they asked you in Spanish and your spoken answer.

QUESTIONS

1. Write one complete sentence from your 'Educación' section and its English translation.
-
2. Write one complete sentence from your 'Carrera' section using an irregular future verb.
-
3. Write the 'ir + a + infinitivo' sentence you included somewhere on your poster.
-

4. What question did your listener ask you in Spanish, and how did you respond?
