

Practice Interview & Conversation

Name: _____ Date: _____

LEARNING OBJECTIVE

The student will conduct a live conversational practice interview in Spanish to build fluency ahead of the capstone presentation.

MATERIALS NEEDED

- index cards
- paper
- pencil
- phone or device for recording (optional)

HANDS-ON ACTIVITY

1. Write 6 interview questions in Spanish that someone might ask you about your capstone country research (e.g., '¿Qué país elegiste?' '¿Por qué?').
2. Practice answering each question aloud in complete Spanish sentences, referring to your capstone folder notes as needed.
3. Ask a family member to read your interview questions to you (using an accent as best they can, or just reading the Spanish text) while you answer aloud in Spanish without reading directly from notes.
4. Record the interview if possible, or have your family member jot down which questions you answered smoothly and which were harder.
5. Revise and rehearse your answer to the question you found most difficult.

QUESTIONS

1. Write one interview question and your full-sentence Spanish answer.
-

2. Which interview question was hardest to answer without notes, and why?
-

3. How did rehearsing your revised answer change your confidence or fluency?
-

4. What is one strategy you can use during your Week 9 capstone presentation if you forget a word in Spanish?
