

Volunteering & Planning a Service Project

Name: _____ Date: _____

LEARNING OBJECTIVE

The student will research volunteer opportunities and design a realistic, achievable community service project plan.

MATERIALS NEEDED

- paper
- pencil
- device with internet access or local resources (optional)

HANDS-ON ACTIVITY

1. Using your Week 1 needs list, choose one need you would like to address through a small service project.
2. Research 2-3 real ways people typically address this type of need (organizations, common volunteer activities, or personal initiatives).
3. Draft a service project plan including: the need you're addressing, your specific action, who will be involved, materials needed, and a target date.
4. List 3 realistic obstacles you might face in carrying out this project and one solution for each.
5. Share your plan with a family member and ask for their input or approval before moving forward next week.

QUESTIONS

1. What need are you addressing, and what is your specific planned action?
-

2. List the materials you will need and who will be involved in your project.
-

3. What is one obstacle you anticipate, and how do you plan to address it?
-

4. What feedback did your family member give on your plan?
-
