

Engineering a Simple Animal Shelter

Grade: PreK | Subject: Science | Week 19: Animals and Their Habitats | Time: 10–15 minutes

Learning Objective

Simplified, hands-on version: Student will design and build a simple shelter model that could help protect an animal in its habitat.

Materials Needed

Craft materials (twigs, leaves, paper, cotton balls, small box), a toy animal figure

Practice Activity

Child tests the shelter and improves one part of the design.
