

What Plants Need to Grow

Grade: 3-5 | Subject: Science | Week 28: Plants: Seeds, Roots, and How Things Grow | Time: 35–45 minutes

Learning Objective

Student will independently identify and describe the 4 things plants need to grow (soil, water, sunlight, air).

Materials Needed

Two small cups with soil and seeds, picture cards of plant needs

Practice Activity

Child draws a picture of a plant and labels the 4 things it needs. Extend by writing 2-3 sentences reflecting on the skill.
