

Engineering a Simple Animal Shelter

Grade: 3-5 | Subject: Science | Week 19: Animals and Their Habitats | Time: 35–45 minutes

Learning Objective

Student will independently design and build a simple shelter model that could help protect an animal in its habitat.

Materials Needed

Craft materials (twigs, leaves, paper, cotton balls, small box), a toy animal figure

Practice Activity

Child tests the shelter and improves one part of the design. Extend by writing 2-3 sentences reflecting on the skill.
